**Planting fruit trees is a metaphor  
for the Alignment Network mission.**

## *The Alignment Network for Organizations*

We live in a culture that is increasingly secularized.

Connections with God are diminishing  
and even challenged.

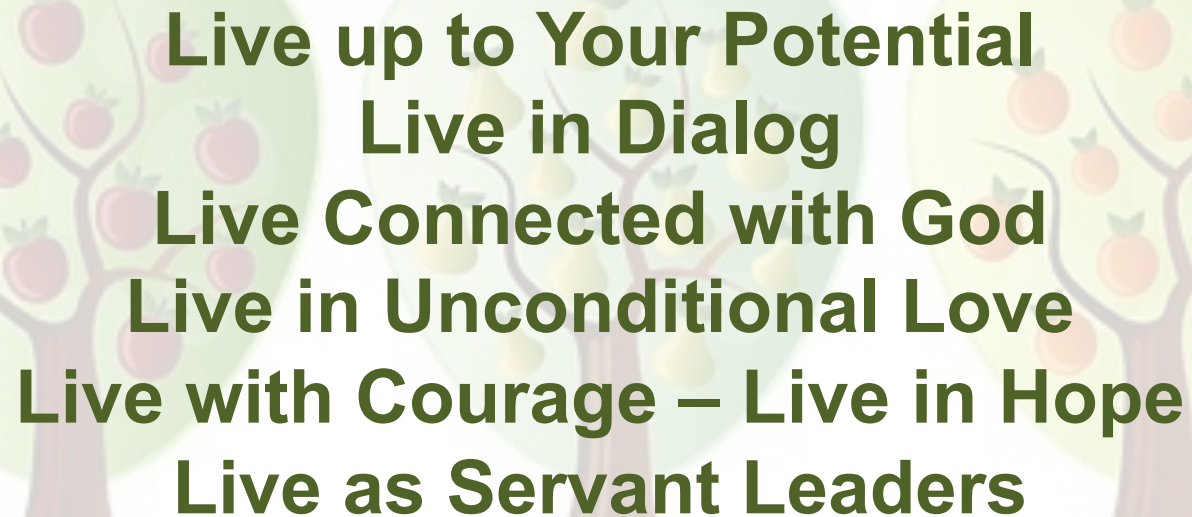

The consequences are serious  
for our personal lives, our institutions and our society.

## *The Alignment Network for Organizations*

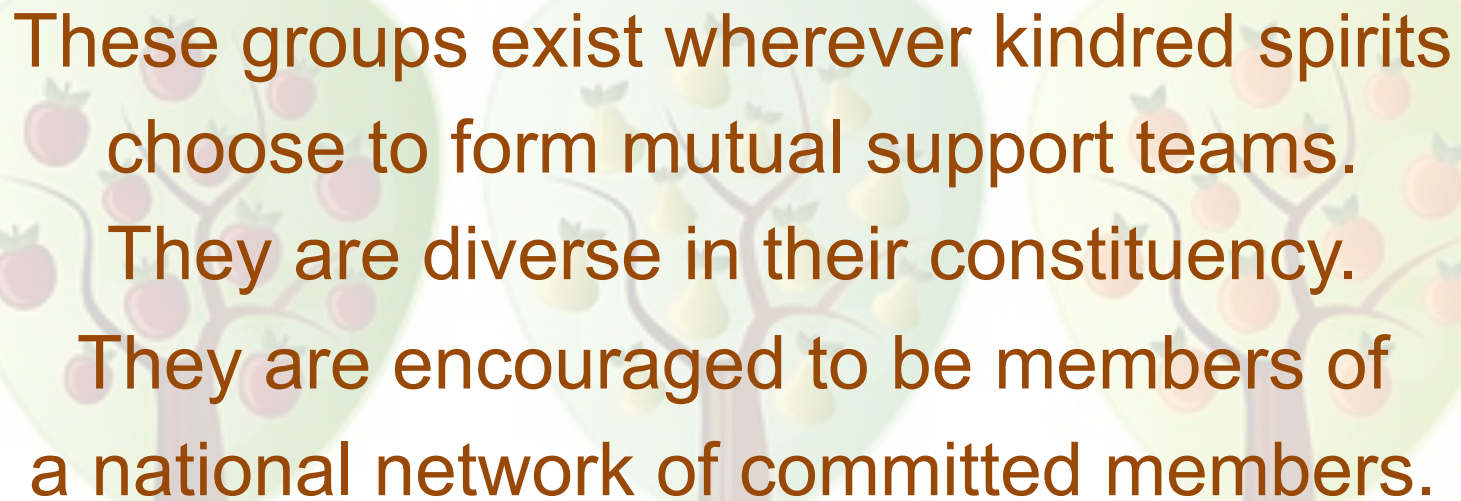

**We seek to PLANT in our society  
seed-groups committed to practice  
seven principles.**

These groups exist wherever kindred spirits choose to form mutual support teams. They are diverse in their constituency. They are encouraged to be members of a national network of committed members.

## *The Alignment Network for Organizations*

**Our book: *What's With You and God? Discover How Well You Know God***  
encourages dialog exploration into  
the meaning of the seven principles.  
Those who complete the dialog sessions  
are invited to become Network Teams.

There are within many organizations those who will welcome open-ended principle-focused dialog with those with whom they work.

## *The Alignment Network for Organizations*

**Why would such organization's leaders choose to sponsor such sessions?**

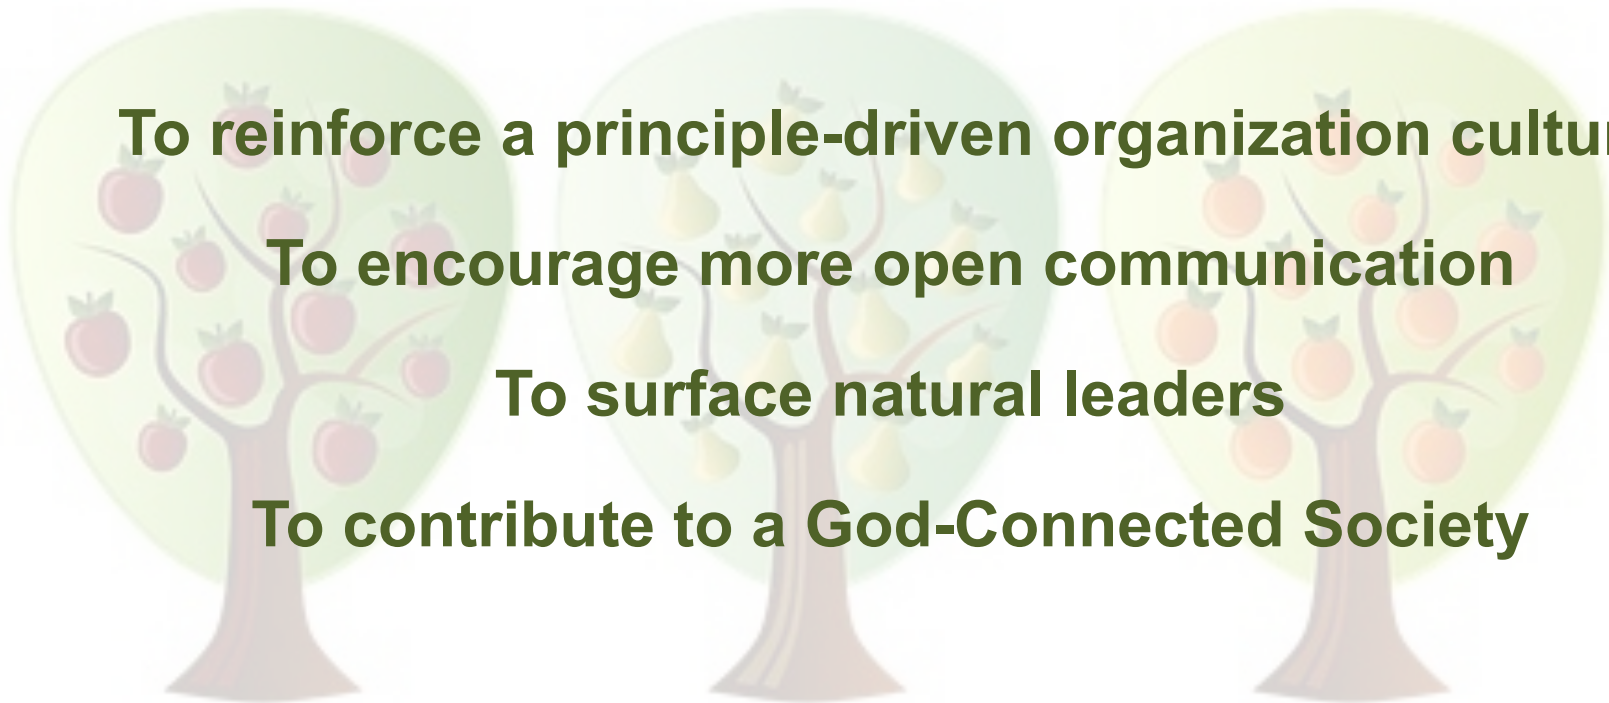

## *The Alignment Network for Organizations*

**To reinforce a principle-driven organization culture**

**To encourage more open communication**

**To surface natural leaders**

**To contribute to a God-Connected Society**
